ABOUT ME

Le Wagon's Bootcamp Full-Stack Web Deveveloper graduate. I possess strong abilities in Front-End and 7 years of progressive experience as a senior creative designer. I am experienced in web design; creating websites, mobile applications, interactive ad banners and more. Passionate about practical design and optimization, I am always striving to push the envelop and maximize the tools at my disposal.

EXPERIENCE

BELL MEDIA *10/2017 – present*
Senior Creative Designer

- CMS maintenance and web-tool optimization for Bell Media's radio stations sites, including content queries, layout templates, app integrations, documentation and more.

- Develop automated mailing system campaigns (HTML, CSS), including external content retrieval, data-base segmentation and leveraging scheduled reports to provide performance insights.

- Design visual campaigns related to promotions, contests, marketing, events. etc. (digital and print).

- Create graphic and motion design systems, templates and prototypes with Figma, Photoshop, AfterEffect and more.

- Collaborate with the development team to test and optimize new releases, accessibility, and ensure the quality control of our sites and applications.

- Managing JIRA and Confluence project workflows as well as statistical analysis.
